## 2022 SAUVIGNON BLANC | SUISUN & NAPA VALLEYS

**Nose:** Fresh and clean, with white peach, wet stone, clementine and other citrus notes.

**Palate:** Bright lemon blossom on entry, with additional echoes of peach. Smooth texture, lasting freshness and a mouthwatering finish leave you wanting another sip.

**Style differentiator:** The wine is not overly ripe – while also not herbaceous – featuring low alcohol and vibrant acidity.

**Showcasing an agricultural gem:** Most of our grapes come from Suisun Valley, a little-known but exceptional wine region just a short drive from Napa. Located within Solano County, Suisun Valley shares a similar maritime climate to Napa, with warm days and cool nights ideal for Sauvignon Blanc.

**Farming notes:** We use vineyard techniques to ensure ideal sunlight during the growing season, which eliminates any herbaceous character while achieving a perfect level of ripeness.

**Suggested food pairings from winemaker Jenny Wagner:** Salads, grilled fish or a family favorite – pea soup. Jenny also enjoys this wine on its own.

*“I’m going after a subtle wine that is more minerality-driven than fruit driven.  
In my view, with Sauvignon Blanc, less is more.”* - Jenny Wagner, owner and winemaker
